

## Intelligent LED Driver (Constant Current)

- Housing made from SAMSUNG/COVESTRO's V0 flame retardant
- Ultra small, thin and lightweight, screwless end cap.
- $\bullet\,$  Change the output current, dimming mode and other parameters via the APP.
- Adjustable output current with 1mA step.
- Automatically recognize 0-10V and 1-10V input signal.
- Ultra-low consumption of 0-10V ports < 0.05mA.
- Soft-on and fade-in dimming function enhances your visual comfort.
- T-PWMTM super deep dimming technology, 0.01% dimming depth.
- The whole dimming process is flicker-free with high frequency exemption level.
- Comply with the EU's ErP Directive, networked standby<0.5W.
- $\bullet\,$  When there is no load, the output will be 0V to prevent damage to LEDs due to poor contact.
- $\bullet\,$  Overheat, over voltage, overload, short circuit protection and
- Suitable for Class I / II / III indoor light fixtures.
- Normal service life can reach 100,000 hours.
- 5-year warranty (Rubycon capacitor).

4 in 1 dimming 0-10V 1-10V 10V PWM RX

Flicker Free IEEE 1789

Dimmable: 10000:1

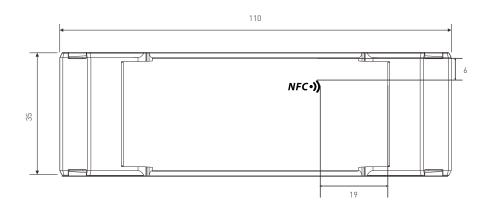

## **Technical Specs**

House		SE-12-1	00-500-W1A				
1-10461	Model Output Type						
Features	Dimming Interface	Constant current					
		0-10V (1-10V, 10V PWM, RX)					
	Output Feature	Isolation	1				
	Protection Grade	IP20					
	Insulation Grade	Class    (Suitable for class  /    /     light fixtures)					
оитрит	Output Voltage	9-42Vdc					
	Maximum output voltage	<48Vdc					
	Output Current Range	100-500mA					
	Output Power Range	0.9W-12W					
	Dimming Range	0~100%, down to 0.01%					
	LF Current Ripple	<3%[Maximum current for non dimming state]					
	Current Accuracy	±5%					
	PWM Frequency	≼3600Hz					
	DC Voltage Range	120-300Vdc					
	AC Voltage Range	100-240Vac					
	Input Voltage	115Vac/230Vac					
	Frequency	50/60Hz					
	Input Current	<0.18A/115Vac, <0.08A/230Vac					
	Power Factor	PF>0.95/115Vac (at full load), PF>0.9C/230Vac (at full load)					
INPUT	THD	THD<10%/230Vac, at full load					
	Efficiency (Typ.)	84%@300mA (at full load),82%@500mA (at full load)					
	Inrush Current	Cold start 15A(Test twidth=102us tested under 50%   peak)/230Vac					
	Anti Surge	L-N: 2KV					
	Leakage Current	Max. 0.	24mA				
	Working Temperature	ta: -20 ~ 50°C tc: 80°C					
	Working Humidity						
ENVIRONMENT	Storage Temperature/Humidity	20 ~ 95%RH, non-condensing -40 ~ 80°C/10~95%RH					
	Temperature Coefficient		'°C(0-50°C)				
	Vibration			min for X-V and 7 axes respectively			
		10-500Hz, 2G 12min/1cycle, 72 min for X, Y and Z axes respectively					
	Overload Protection Overheat Protection	Automatically protect the device when the load exceeds 102% of the rated power. Automatically recover once load is reduced					
PROTECTION		Intelligently adjust or turn off the current output if the PCB temperature >110°C. When the PCB temperature <90°C, automatically recover normal output					
	Overvoltage Protection	Automatically protect the device when voltage exceeds the no-load voltage. It can be recovered automatically					
	Short Circuit Protection	Enter hiccup mode if short circuit occurs, and recover automatically					
	Withstand Voltage	I/P-0/P: 3750Vac					
	Insulation Resistance		2: 100MΩ/500VDC/25°C

## Wiring Diagram

## Table of Typical Corresponding Parameters for Current

The typical 9 current data set	ne typical 9 current data sets below are for reference when selecting LED fixture models. More current levels can be set by NFC using mobile APP with 100-500mA adjustable in 1mA st								
Output Current	100mA	150mA	200mA	250mA	300mA				
Output Voltage	9-42Vdc	9-42Vdc	9-42Vdc	9-42Vdc	9-40Vdc				
Output Power	0.9-4.2W	1.35-6.3W	1.8-8.4W	2.25-10.5W	2.7-12W				
Output Current	350mA	400mA	450mA	500mA	/				
Output Voltage	9-34Vdc	9-30Vdc	9-27Vdc	9-24Vdc	/				
Output Power	3.15-11.9W	3.6-12W	4.05-12.15W	4.5-12W	/				

## Protective Housing Application Diagram

1. Use a tool to pry up the protective housing on the side panel.

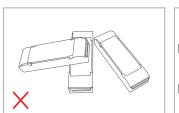

2. Pry up the protective housing in the side plate position with a tool.

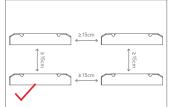

3. Connect to electrical wires with a screwdriver as wiring diagram shows.

4. Press down the tension plate to fix the the electrical wires.

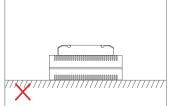

5. Close the protective housing.

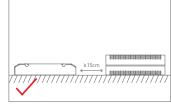

### **Installation Precautions**

Please not place the products on LED drivers. The distance between the product and the driver should be ≥15cm so as not to affect heat dissipation and shorten the lifespan of the products.

Note: The temperature within the installation area should be within the working temperature range of the products. Please do not install products inside LED fixtures to avoid temperature exceeding the working temperature that may affect the product lifetime.

## Use the NFC Lighting APP

Scan the QR code below with your mobile phone and follow the prompts to complete the APP installation (According to performance requirements, you need to use a NFC-capable Android phone, or an iphone 8 and later that are compatible with iOS 13 or higher).

\* Before you begin setting the parameters of the driver, please make sure the driver is powered off.

#### Read/Write the LED driver

Use your NFC-capable phone to read LED driver data, then edit the parameters and they can be directly written to the driver.

### 1. Read the LED driver

On the APP home page, click [Read/Write LED driver], then keep the programmer's sensing area close to the NFC logo of the driver to read the driver parameters.

#### 2. Edit the parameters

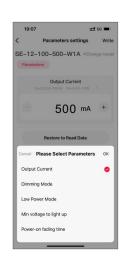

Click 【Parameter settings】 to edit the advanced parameters, like output current, dimming mode, low power mode, etc.

#### 3. Write to the driver

After completing the parameter settings, click [Write] in the upper right corner, and keep the programmer's sensing area close to the NFC logo of the driver, so the parameters can be written to the driver.

## Transportation and Storage

1. Transportation

Products can be shipped via vehicles, boats and planes.

During transportation, products should be protected from rain and sun. Please avoid severe shock and vibration during the loading and unloading process.

2. Storage

The storage conditions should comply with the Class I Environmental Standards. The products that have been stored for more than six months are recommended to be re-inspected and can be used only after they have been qualified.

### **Attentions**

- This product must be installed and adjusted by a qualified professional.
- This product is non-waterproof (special models excepted). Please avoid the sun and rain. When installed outdoors, please ensure it is mounted in a water proof enclosure.
- $\bullet \quad \mathsf{Good} \ \mathsf{heat} \ \mathsf{dissipation} \ \mathsf{will} \ \mathsf{extend} \ \mathsf{the} \ \mathsf{life} \ \mathsf{the} \ \mathsf{product}. \ \mathsf{Please} \ \mathsf{install} \ \mathsf{the} \ \mathsf{product} \ \mathsf{in} \ \mathsf{a} \ \mathsf{environment} \ \mathsf{with} \ \mathsf{good} \ \mathsf{ventilation}.$
- When you install this product, please avoid being near a large area of metal objects or stacking them to prevent signal interference.
- Please keep the product away from a intense magnetic field, a high pressure area or a place where lightning is easy to occur.
- Please check whether the working voltage used complies with the parameter requirements of the product.
- Before you power on the product, please make sure all the wiring is correct in case of incorrect connection that may cause a short circuit and damage the components, or trigger a accident
- If a fault occurs, please do not attempt to fix the product by yourself. If you have any question, please contact the supplier.
- \* This manual is subject to changes without further notice. Product functions depend on the goods. Please feel free to contact our official distributors if you have any question.

## Warranty Agreement

- \* Warranty periods from the date of delivery:  $5\ \text{years}.$
- $\bullet \quad \text{Free repair or replacement services for quality problems are provided within warranty periods}.$

Warranty exclusions below:

- Beyond warranty periods.
- Any artificial damage caused by high voltage, overload, or improper operations.
- Products with severe physical damage.
- Damage caused by natural disasters and force majeure.
- Warranty labels and barcodes have been damaged.
- No any contract signed by LTECH.
- 1. Repair or replacement provided is the only remedy for customers. LTECH is not liable for any incidental or consequential damage unless it is within the law.
- 2. LTECH has the right to amend or adjust the terms of this warranty, and release in written form shall prevail.
